// Web Developer //

candace.worthen@gmail.com

## About

I'm a creative web developer with a solid understanding of building websites and web apps from start to finish. I enjoy all of phases of development including wire-framing/layout, writing efficient clean code, evaluating and learning new technologies, testing and debugging, problem-solving, and deploying with version control. I use code to not only build functional products but to reach people in a unique and engaging way.

## Skills

HTML5, CSS3, Media Queries, CSS frameworks, Javascript, jQuery, Git, Wordpress, PHP, MySQL, Command Line, Mobile Web Development

## Experience

### Interactive Mechanics, Web Development Fellow

Philadelphia, PA 9/2016-current

- Developing interactive app geared to teachers and students
- Collaborating with staff on design, code and content

### Girl Develop It, Teaching Assistant

Philadelphia, PA 2016/current

- Assist students who need help learning HTML5 and CSS3 in web development classes.

### {{Life before code}}

I spent the first half of my professional career as a content creator, including video production, photography and writing. The skills I learned from being a content creator has made me a better developer because it taught me how to research, ask questions, pay close attention to details, collaborate with others and problem solve.

Here are some highlights below:

### PhillyCam, Freelance Videographer

Philadelphia, PA 10/2013-12/2015

### Pablove Foundation, Photography Teaching Assistant (Shutterbugs program)

Philadelphia, PA 9/2014-5/2015

### AI Dia NewsMedia, Content Producer

Philadelphia, PA 1/2014-7/2014

### MIND TV, Production Assistant and Intern

Philadelphia, PA 8/2011-4/2012

### City Year, After School Coordinator

Philadelphia, PA 8/2010-6/2011
